PREGNANCY TEST AS A TOOL IN DEFENSE OF LIFE

Using the pregnancy tests as a tool of the voice for Life is the best opportunity to address the woman, at a time when she faces a choice.

с заботой о Вас!

Каждая женщина и каждый мужчина должны знать, что...

Жизнь человека начинается с момента зачатия. Уже самая первая клетка – **зигота** (клетка, образованная при слиянии ядер сперматозоида и яйцеклетки) содержит всю информацию о человеке: его пол, рост, цвет волос, черты лица, строение всех белков, группу крови, способности и уже является неповторимой личностью.

Не менее важно также знать и о том, что ...

Прерывание беременности на любом сроке и не зависимо от причины является медицинским вмешательством, наносящим вред здоровью человека (Пр. Минздравсоцразвития № 194н от 24.04.2008 г.).

Аборт (хирургический, медикаментозный, мини-аборт) приводит к необратимым последствиям для женщины, поскольку грубо нарушает все гормональные процессы в организме. По мнению специалистов РАМН, аборт во много раз повышает риск развития онкологических заболеваний и является основной причиной бесплодия более чем у 7 млн. женщин в России.

Известно, что начало беременности всегда сопровождается психической депрессией, которая имеет как физио-логические причины, связанные с гормональными изменениями в организме, так и социальные, поскольку в этот момент необходимо решить много важных вопросов: продолжать ли образование, как быть с работой, с жильем и др.

Женщина в этот момент крайне ранима и болезненно чувствительна, поэтому ее способность принимать осознанные решения сильно снижается.

Обычно после 14-ой недели беременности депрессия сменяется эмоциональным подъемом и радостью, но решение о сохранении беременности, женщина принимает в самый эмоционально неблагоприятный период.

Pilgrims seek victory over Russia's culture of death

June 12, 2012 (Zenit.org) – As I write this, a small band of pro-life missionaries is driving through the vast desolate plains of Siberia, on a historic pilgrimage across Asia and Europe.

On June 14, the pilgrims left the port city of Vladivostok on the Pacific Coast of Russia with a replica of the famous icon of Our Lady of Czesstochowa. The icon will be venerated by tens of thousands across eight time zones in Russia, and eventually will zigzag across Europe to Fatima, Portugal and, hopefully, will even come to the United States in the spring of 2013.

Pilgrims carrying the Icon of Our Lady of Czesstochowa.

What would motivate a small band of believers to undertake this long and potentially dangerous journey in what is being called the "From Ocean to Ocean International Campaign in Defense of Life?" The pilgrimage of the icon, led by a coalition of Catholic and Orthodox leaders including Lech and Ewa Kowaleski of Human Life International (HLI) Poland, is intended both as a response to nearly a century of legalized abortion in Russia, and for victory over the culture of death throughout the world. The pilgrims believe that this victory for life will take place through the powerful intercession of Mary, the Mother of God.
